A DESCRIPTION

HE CYPRESS LAWN CEMETERY is situated in San Mateo County, ten miles from San Francisco, between the Home of Peace (Jewish) and the Holy Cross (Catholic) cemeteries.

The Cemetery was founded through the efforts of Mr. H. H. Noble and was dedicated in 1892. The first interment took place on June 4, 1892.

The character of the Cemetery is strictly non-sectarian.

Cypress Lawn is reached by Southern Pacific train from Third and Townsend Streets, leaving daily at 11:30 o'clock A. M., or by electric street car on Mission Street (car No. 14 or San Mateo suburban line), every six minutes, or by automobile via California State Highway.

The Chapel is for free use of the patrons of the Cemetery. The audience room, closed upon both sides with a conservatory, is used for any and all religious denominations, where any form of burial services may be held amid the odor and loveliness of flowers, summer and winter. Organ service is provided.

Adjoining the chapel is the Receiving Vault where remains may be placed pending the selection of a final resting-place. Provision for permanent overground vault burial can be made by the purchase, outright, of crypts in our Mausoleum.

Nature and the art of the landscape gardener have combined to make of Cypress Lawn a well-kept memorial park, at once a delight to the eye and a source of repose to mind and heart. Designed upon the modern lawn plan, its velvety green lawns, smooth and immaculate, dotted with graceful trees and flowering, ornamental shrubs, stretch in broad reaches on every side, unmarred by fence or coping.

The perpetual care of every lot and grave and the preservation and maintenance of buildings, ornamental grounds and roadways are assured by the income derived from the investment of a certain proportion of proceeds received from sale of lots, graves and niches in Mausoleum. This vital feature removes forever the possibility of negligence, absence or forgetfulness of lot owners, and renders permanent the beauty of the whole Cemetery.

The Perpetual Care Fund is invested in accordance with the provisions of Section 616 of the Civil Code of the State of California, and is under the control and supervision of the Board of Trustees.

This Fund, on December 1, 1915, amounted to $414,239.27, and is constantly increasing in proportion to the sale of lots, etc.

All arrangements for the purchase of lots and single graves, openings in lots and disinterments, and grave-boxes, must be made directly at the Cemetery or City Office.

A copy of the rules and regulations pertaining to all matters connected with the Cemetery will be mailed upon request.

CREMATORY, COLUMBARIUM AND MAUSOLEUM

The Crematory at Cypress Lawn Cemetery affords every facility for the incineration of human remains and such funeral service as may be desired in connection therewith.

The Cypress Lawn Columbarium and Mausoleum has recently been erected, wherein niches providing for the permanent disposition of incinerated remains may be secured. When at Cypress Lawn, don't fail to visit this beautiful and picturesque structure. Arrangements for the purchase of niches may be made directly with the Superintendent at the Cemetery.

"A cemetery, yet a lovely garden spot
Where nought of woe obtrudes its melancholy.
But tender lawn and peaceful, sun-flecked grot
Afford a balm that soothes and pleases wholly."
